RE: Dr. Jerry Dempsey
75 South Shaw Lane
Fort Thomas, KY 41075

To Whom It May Concern:

We have changed from a traditional answering service to the Cadusys system and have used it for over a month and have been extremely happy with it. Not only has the Cadusys system saved our office money, it has taken out the human error factor.

We would highly recommend the Cadusys system to any medical practice. I would also like to point out that Dr. Jerry Dempsey gave us his close, personal attention and made the conversion over to the system very easy and he was readily available if we had any questions and needed his help.

Sincerely,

Samuel B. Wolf, D.O.
